Subject: Firearms cases

Yesterday, we received a directive from the DAG, instructing on DOJ's policy regarding guns going south into Mexico. "We should not design or conduct undercover operations which include guns crossing the border. If we have knowledge that guns are about to cross the border, we must take immediate action to stop the firearms from crossing the border, even if that prematurely terminates or otherwise jeopardizes an investigation." This would include cases where we are working with the Mexican government to have them follow the vehicles once they are in Mexico in order to find the purchaser. If a vehicle is lost in surveillance, take all steps to notify the ports to be on the look out to stop the vehicle/person at the POE.

Please distribute this to your agents to ensure they are clear on this policy.

If you have any questions about this policy, please call me.
